The Play – Youth Performance

Attention: Brian Montgomery

Thank you for reaching out regarding your musical “The Play”

After meeting with you and understanding more about this project I would like to extend a letter of support for this production.

“The Play” centres around some important issues affecting young people and offers young people the opportunity to engage with like minded people as part of the performance.

Following our discussion I can see you are passionate about involving local young people in the performance and spreading the positive message of “The Play”, I am happy to assist in promotion of this performance.
